## Women's Business Centers - at the Heart of an Inclusive Economic Recovery

2021 is marked by continued high demand of California's 16 WBCs who supported the **resiliency** of underserved entrepreneurs struggling to sustain businesses and maintain precarious household income.

Compared to pre-pandemic 2019, in 2021 WBCs served twice as many clients and doubled the number of businesses started and sustained.

**WBCs reached the entrepreneurs most at risk: 68% Women, 63% People of Color, 50% of Low Income, in both rural and urban areas across the state.**

WBCs provide both high-touch and high-impact services and support business success with culturally competent strategies in local communities.

### Our 2021 results compared to 2019 reflect this economic resilience:

**Build** resilient communities. **Grow** our economy. **Invest** in Women's Business Centers of California.
